

Tic Tac Bingo

Activity Directions

- This game is very similar to Bingo except you are also **competing** with another player similar to Tic Tac Toe. You and your partner are both trying to fill an **entire row** on the same board.
- Answer the question given, and try to find the answer on the board. There will be at least **two** correct answers on each board. One for you and one for your partner. Once you find the answer cover the answer with a token, or circle it with your pencil/marker.
- Take turns with who gets to select their answer first on the board. (Or whoever answers first)
- Your goal is to be the **first** one to fill up an entire row, once you fill it up you say "BINGO".
- Be thoughtful about which answer you select, you can try to go for the **win**.. Or maybe it's better to **block** your partner?
- If you see FREE spaces that means you both get that one right away! Lucky you!
- There may be answers on the board that are not correct and are trying to trick you. Be careful!
- It is possible that the Bingo card could have extra correct answers. So it is important to make a good decision because you are **NOT** allowed to switch your answers later!
- If nobody gets a full row across, the winner is the one with the **longest chain** in a row, or if you both have the same amount then just like Tic Tac Toe it could end in a tie!
- If someone wins very early, you could reset the board to try again, or try to get 2 entire rows.
